

VNV Nation have climbed to great heights, in recent years, earning themselves a place among the top names in Alternative Music. Their last album "Automatic" (2011) reached #8 on the German Album Charts and was followed by sold out shows throughout Europe and North America. They return with a new album "Transnational" in September this year, followed by a world tour that kicks off in Germany.

Never content with fitting in any category, their sound ranges from melodic energetic beats to indie-electronic-anthems to emotive ballads and beyond. Their live shows are legendary, attracting fans from across the musical spectrum, to a performance that is pure energy and positive emotion.
